"The Only Salt that is Doctor Recommended!"

Totally unrefined, Light Grey Celtic® sea salt is dried by the sun and the wind, retaining pockets of brine, filled with vital minerals and trace elements necessary for optimum health.

- Doctor recommended
- Certified kosher
- Leading brand name
- No additives or processing of any kind
- Unrefined, hand-harvested and dried by the sun and wind
- Retains a vast array of vital trace minerals
- A coarse, moist salt with a light grey hue from the pure clay beds where the crystals form

Flavor:

- Celtic Sea Salt® Brand salt
- A rustic old-world flavor that is more assertive than other varieties.

"This is the one I use. It has a long track record with me. This is what I recommend for my patients."

- Dr. David Brownstein, M.D.

CELTIC SEA SALT®

Flower of The Ocean® - Fleur De Sel

Fleur De Sel - Flower of the Ocean® Celtic Sea Salt®

Flower of the Ocean® is a natural phenomenon of clay lined salt flats. Only when the weather conditions are just right do these small, delicate crystals form naturally on the surface of the salt brine. Hand harvested with care.

- Forms on the surface of the brine only when weather conditions are just right.
- Elegant, delicate crystals
- Available only as whole crystals; totally unrefined.
- Certified Kosher
- Doctor Recommended

Flavor

- A rare salt, valued as a delicacy by gourmets around the world.
- Exquisite and complex with a hint of sweetness.

"The Celtic Sea Salt® is truly stunning. It adds a clean, refined note to the food and helps to enhance natural flavor. I've had a love affair with this product for over 10 years."

- Chef Charlie Trotter, Charlie Trotter's Restaurant

Unrefined Hawaiian Deep Sea Salt

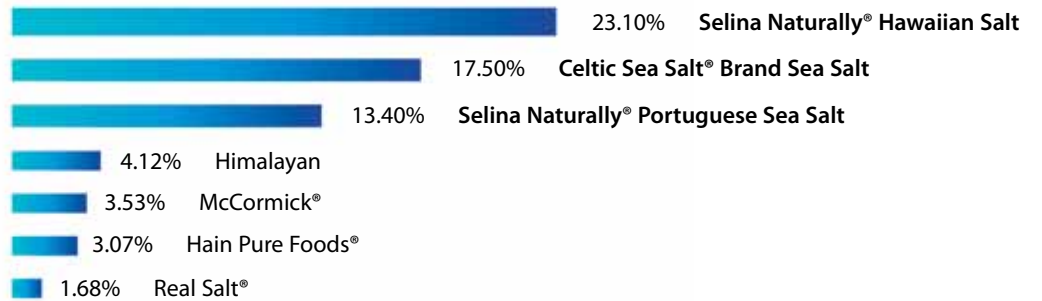

A marvel of nature and technology! Nature provides the deep sea currents off the coast of Kailua-Kona, Hawaii: the coldest and saltiest ocean waters. Man provides the technology to pump the water up from 2,000 feet below the surface, dry it in pharmaceutical-grade clean rooms, and harvest the remaining beautiful, brilliant white, salt crystals.

With an astounding pH of 10.22 and a mineral content of 23.1%, it is unmatched by any other salt available today. Its assertive flavor is perfect for any dish, especially on salads, raw fruits, and vegetables. Its lack of insolubles makes it ideal for nasal cleansing and other health applications. Grinder is refillable up to 5 times!

“The Hawaiian Deep Sea Salt has the most minerals of any of our salts!”

Selina Naturally® unrefined sea salts have higher levels of mineral-rich brine and trace elements than our competitors.

Seawater contains minerals such as sodium, magnesium, calcium, and potassium, plus many trace elements such as copper, iron, zinc, and manganese. The human body uses the minerals & trace elements in sea salt to create electrolytes, maintaining the “internal ocean” which is vital to the proper functioning of every system in the body.

A Tradition of Excellence

Selina Naturally® Portuguese Sea Salt comes from traditional salterns in the protected nature reserves along the coast of Algarve, Portugal.

- Best Value
- Certified Kosher
- Sustainably Harvested

While visiting Portugal, Selina observed that this salt is hand harvested and sun-dried by the *marenotos* (salt gatherers) in the traditional hand harvested manner. An analysis of the salt revealed that its mineral content came close to rivaling that of Celtic Sea Salt® Brand!

Convenient

- Available in Coarse and Fine Ground
- Refillable, recyclable, glass jars, ½ lb and 1 lb resealable bags, and 5 lb and 22 lb bulk bags.

Located on the tip of Europe with the vast ocean of the Atlantic as its southern and western border, this enviable position gives the Algarve region possibly the most unpolluted environment on the European continent.
